## ENJOY THE NEW CRUISE GATEWAY & THE UNSPOILED DESTINATION IN ADRIATIC & IONIAN SEA

### ABOUT

The second largest shipping lines call on the Port of Igoumenitsa, connecting direct and indirect the port westbound and eastbound, to more than 50 countries. With no doubt is one of the E.U. and Greece as well main sea gateways located in Adriatic & Ionian Sea basin. Acting as the connecting point of the mostly unknown, untouched and unspoiled region in E.U. and Greece, with amazing sea promenades with green inlets consisting the Ionian Sea fjords and full of culture, history and culinary tradition inland. The Port of Igoumenitsa presents to the shipping community the new era with an extensive master plan full of green technology and innovation, ready to deliver excellent services with shore power (planning for late 2022 season), LNG provision (planning for 2024), updated cruise port operations with Terminal facilities.

Ideal for year-round cruising, Igoumenitsa enjoys a mild Mediterranean climate, with less than 34 rainy days, a lot of sunny days and a warm climate from April to October.

Throughout the year it offers plenty of excursions and activities within a short driving distance from the port having direct access to the Egnatia Highway (A2) one of the main EU highways. There is high potential for pre- and post-cruise packages, thanks to the high number of resort hotels and the port's proximity to the city center and world famous resort areas.

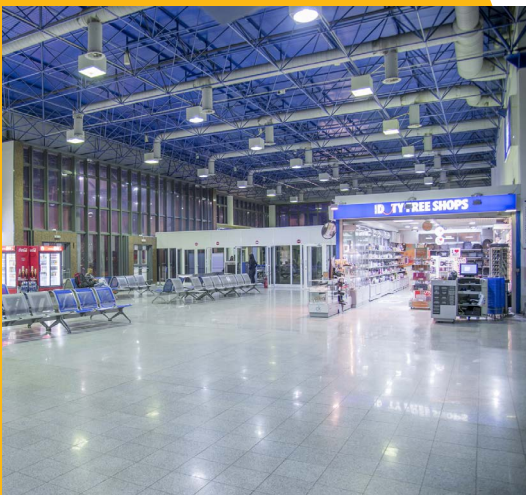

## ECONOMIC IMPACT

The Port of Igoumenitsa makes smooth connections happen that attract and retain cargo, ferry and cruise activity to the Port and destination, which delivers economic benefits to the local community, region and country.

## GREECE'S ADRIATIC & IONIAN SEA GATEWAY TO THE MEDITERRANEAN AND WORLD

- Diverse cargo and ferry/cruise port
- Provides direct & indirect connections with more than 50 countries for cargo imports & exports
- One of the safest, deepest and largest natural, wind & currents-free harbors in the Mediterranean Sea.
- Wind & currents-free year-round and minimal tides
- Strategically located on the middle of Adriatic & Ionian Sea basin
- Most westerly Greek full-service cargo & ferry cruise port
- First inbound, last outbound port to Central & Western Europe & North Africa from Balkan Peninsula, former Eastern Europe & Asia countries
- Serving major cargo & ferry lines on Mediterranean pendulum routings in Mediterranean Sea.
- Multipurpose & integrated Port.
- Capacity to accommodate the world's largest vessels
- Two modern cargo & ferry terminals & one dedicated to cruise port operations

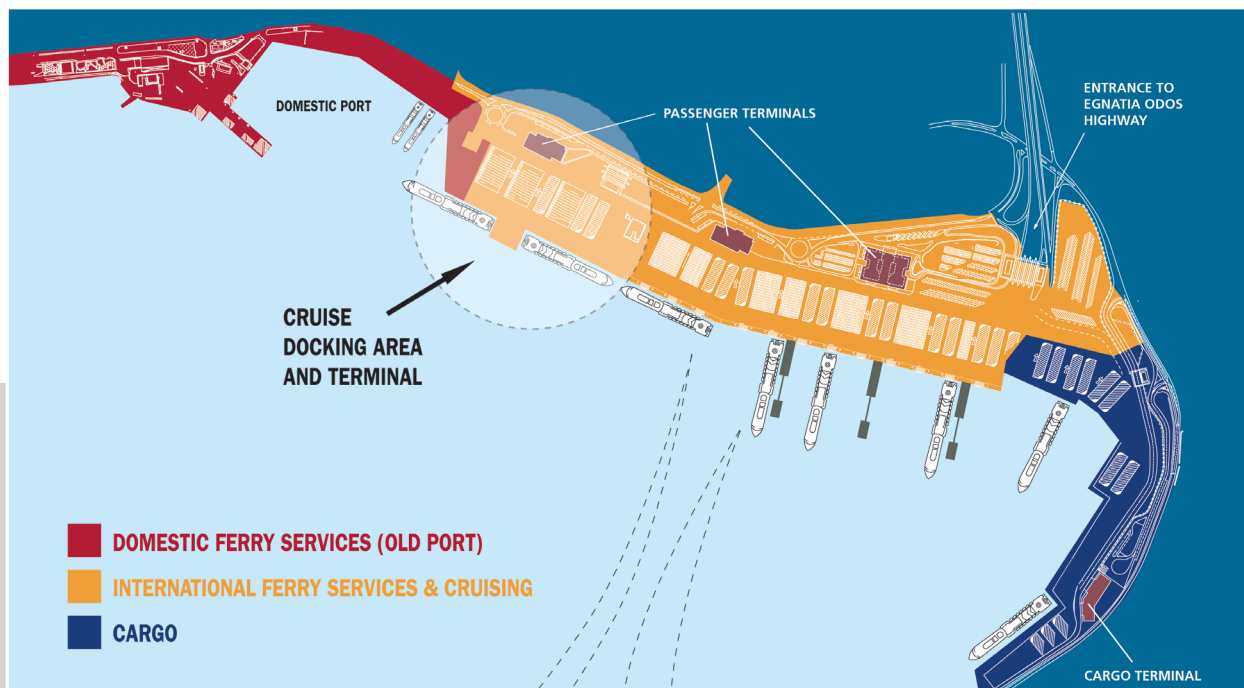

# SUSTAINABLE GROWTH BOTH FOR PORT AND DESTINATION

## Working for the port of the future we welcome the cruise community providing:

- A relaxed leisure & beachside atmosphere
- No-stress arrivals and departures
- Close-to-the-ship parking facilities
- Beautiful modern terminal facilities
- A range of excursion options
- A cruise-focused staff to support port operations
- & procedures.
- Top class safety & security services
- Food supplies provision
- Higher potential for environmental & community impacts

## ON TRACK FOR REGIONAL LEADERSHIP

As the 2nd busiest multi-day multipurpose port in Greece and one of the Mediterranean Sea main sea gateways, naturally our sights are set on the next day. But we have more than dreams; we have factual reasons and plans to feel confident of reaching soon this goal.

We are ready to service the demand and the increasing traffic in our region. We have the necessary deep-water channel, convenient access to drive-in with Egnatia Highway and fly-in markets accessing 3 regional international airports and, most of all, we are the only established multipurposed port in Greece with space for significant expansion.

In addition to having the space for growth, we have the financial strength to invest in our future. This is a Port with a strong, stable balance sheet that is not reliant upon government funding. We have in operation two Terminals, Terminal 1 & Terminal 2 and in few months the newest Terminal 3 dedicated for cruise operations. Sustainability isn't only part of our philosophy but we working seriously on that with an intensive master plan with shore power installations, LNG bunkering, Batteries recharging stations, etc.

# ON THE WAY TO THE NEW NORMALITY

Timing is critical; the opportunity and challenges are great. We are right on course, building and planning new facilities to attract ships and visitors. We are currently in the process of preparing a new portwide master plan that will prepare us for the future to meet the long term demands of our Ferry, Cargo & Cruise Industry Partners as well as our three other business lines of Marina development, Yachting & Recreation for port users and local community.
